

5 I claim:

1. A gun case for storage of a long gun, comprising:

a fabric enclosure formed by a fabric outer shell sewn to a padded inner liner and reinforced around a peripheral seam, said shell and integral liner being folded lengthwise and  
10 sewn together at one end to form an elongate enclosure permanently closed along one side and said end, and with conjoined sidelong and end access openings that allow the gun case to be quickly turned inside out for cleaning and/or drying.

2. The gun case of claim 1, wherein said conjoined sidelong and end access openings are  
15 selectively closable with fold-over flaps attached by Velcro closures.

3. The gun case of claim 1, wherein said padded inner liner fabric includes a woven facing that is impregnated with a rust preventative to inhibit corrosion of a gun stored therein.

20 4. The gun case of claim 1, further comprising padding disposed between the patterned outer shell fabric and inner liner fabric to cushion the gun as it is transported, and to maintain the buoyancy of the gun case so that it floats even with a gun contained therein.
